Dr. Luis C. Cattani
Big Bore Chief Engineer

May 14th, 2012

To Whom It May Concern:

This letter is my personal recommendation for Peter Schuren. Until just recently, I was Peter's immediate supervisor during his Project Assignments at Navistar Engine Group. I found him to be consistently pleasant, tackling all assignments with dedication and a smile.

Besides being a joy to work with, Peter is a take-charge person who is able to present creative ideas and communicate the benefits. He has successfully developed several Design Programs for our Engineering Platform that have resulted in increased productivity. As a result of his work, we saw an increase in Engineering Design quality of work. The quality was a direct result of the tools implemented by Peter (Big Bore Engine Systems Concepts Library, Big Bore Engine Components Standardization, Design Reviews, etc.).

Though he is an asset to our Platform Organization, Peter is also extraordinarily helpful in other areas of Engineering. In addition to implementing effective Engineering Design Reviews for our Design Engineers, Peter assumed a leadership role in deploying CAD Systems Integration.

I highly recommend Peter; he is a team player and would make a great asset to any organization.

Sincerely,

Dr. Luis C. Cattani
